

TRIED AL(L)WAYS BUT IN VAIN

Joseph Kumar Kakumanu

Asst. Professor

Vignan's Lara Institute of Technology & Science
Guntur Dist., Andhra Pradesh.

Things advanced so fast to keep pace
Made me even look for a simple place!
Manmade all but far-reaching for me, a man;
Only makes me think against all, too less than!

My heart beats for trying but in vain!
And so it goes on to confess all in pain!

Tried always to be first rated;
But ended in vain frustrated!
Tried always to go a long way;
But mended in going along the way!

Tried always to be in formals;
But force landed into informals!
Tried always to resolve issues different
But was offended to solve issues indifferent!

Tried always to be in the fore front
But only defended to before front!
Tried always into things to be allowed
But contended even without being aloud!

Learned in vain that one has to learn more
To grow more and to grab gambles galore!
